DISTRICT NEWS

Gathered by our wide-awake
Correspondents.

MEETING CREEK

Mr. John Anderson is swing-
ing this winter and is at work
on Battle River south of Meeting
Creek. He still holds his inter-
est in the lumber enterprise at
Camrose and Bawlf.

An oyster supper was to be given
by Ole Olson last Sunday eve-
ning. A good time was anticipat-
ed.

The Surcoux family people will
get their threshing done yet, after
waiting nearly all winter for some
machine to come and thresh them
out.

Messrs Murphy and Hagen have
purchased the horse power rig
owned by Mr. Distler of Damsel.

G. Olson and Conrad Bjor are
employed by Hjeltn & Co., batch-
ers, Camrose and Bawlf.

Born-To Mr. and Mrs. Harry
Kibbe, on Jan. 11, a son, Mr.
Kibbe is justly proud of his first
born.

The Male Singing Club, organized
by E. Queth, now has fifteen
members.

Canada's Great Future.

Dr. P. T. Herault, the French
metallurgical expert, who has been
examining the mining and other re-
sources of Canada, predicts that in
ten years the Dominion will have be-
come a great metallurgical country,
having an iron industry larger than
that of any other country in the world.
So, too, he thinks that within a de-
cade Canada will outstrip all other
countries in wheat-growing. In On-
tario and Quebec there are immense
deposits of magnite, which have re-
mained undeveloped for lack of cheap
fuel. The invention of the electric
smelting process removes this obstacle
because in the neighborhood of the ore
deposits water power is abundant.

Grain Crop of Manitoba.

Winnipeg, Feb. 8.—The report of
the department of agriculture was laid
on the table in the legislature today.
It estimates Manitoba's wheat crop at
57,701,410 bushels, an average of 21.07
per acre. Oats averaged 42.6 bushels,
the crop aggregating 15,451,021 bush-
els. Barley averaged 32.5. Total
cereal crop amounted to 115,851,351
bushels. The root crop averaged 23
to 28 bushels per acre. The value of
farm buildings erected during the
year was \$2,011,000. The value of
other products is estimated at \$700,
201.5, and of cheese, \$127,346.40,
making a total of \$379,737.31 for dairy
products.

River Found Far Under-

ground.

St. Catharines, Ont. Feb. 10.—
News of the discovery of a big
underground river at Neilsen's cor-
ner, Hamilton County, has been
received here. Men were drilling
for natural gas, when the drill sud-
denly dropped down to 30 feet.
When drawn out it was wet for
30 feet. A gush of water could be
heard away down in the bowels of
the earth. Some water was pump-
ed and with it came fish. The
water tasted like lake water.
Residents believe it is a great
channel connecting Lakes Ontario
and Erie. Considerable exca-
vation prevails in the county as a
result of the discovery.

Two Kinds of Ants

Here is a school boy's essay on
ants.

"My subject this week is ants.
There are two kinds of ants, namely,
insects and lady ants. They
live in little hills of sand and with
their married sisters. Two stay
with us. They crawl in the sugar
bowl. This is all I know about
ants. Johnny Green.

What Causes Appendicitis

The commonest cause of appendicitis
is constipation. When you require
physician's use cheap druggists
—get Dr. Hamilton's Pills which
strengthen the stomach and tendency to
appendicitis. In one day you'll feel
the tremendous benefit of Dr. Ham-
ilton's Pills. By purifying the blood
and clearing the bowels they prevent
headaches, lift depression and drive
away nervousness. No medicine is ne-
cessary where Dr. Hamilton's Pills, sold
everywhere in 25c. boxes with yellow
cover get the genuine.

NORTH EAST EARLING

Mr. Reed, of the Battle River
district, was in this neck of the
woods looking for stray horses.
J. Riland passed through here
on Monday last enroute for Weta-
skiwin.

Mr. and Mrs. Stanrud accom-
panied Ole Mosby out to Birch
Lake the forepart of the week.

A jolly dance was held at
Breach's on Friday evening. All
present enjoyed it to a great ex-
tent.

The Meers and Misses Kunt-
son intend to go back to South
Dakota pretty soon.

Mat Lemm was seen in this
part of the country again.

Ole Larson, of Seena, was shak-
ing hands with the boys of Ear-
ling this week.

A curious glow was seen in the
heavens on Tuesday morning at
three o'clock. Flashes of light
could be seen shooting across the
heavens till at last they settled in
the north-eastern skies of Earling.

G. G. Johnson returned from
Washington where he has been
working the last year and a half.
He was accompanied by a Mr.
Jenson.

Mr. Targin returned from Birch
Lake this last week.

Mr. M. C. Culley, of Edmonton,
was here last week selling fruit
and shade trees, also seeds and
plants. He made good sales here.

Messrs Bradrud are looking
pools these days. They intend to
fence all their land the coming
spring.

A Bruce was on the sick list
the for-part of the week, but is
much better at time of writing.

Services were held at Earling
school house on Thursday morn-
ing and evening.

Mr. and Mrs. Stanrud were visit-
ing at Vermilion Valley part of
this week.

Posters have been issued by the
Provincial Department of Agricul-
ture announcing the dates on
which the stock judging schools
will be held in the Edmonton dis-
trict. The schools will be conduct-
ed under the joint auspices of the
Department and the local agricul-
tural societies, and are of a highly
instructive nature. The schools
will be held at Edmonton on March
14 and 15, and working south the
dates are as follows:—Wetaskiwin,
March 16 and 17; Ponoka, March
19 and 20; Lacombe, March 21 and
22; Red Deer, March 23 and 24.
The speakers who will lecture are
J. Standish, V.S., Warkenton, on
horses, and D. Anderson, Rugby,
Ontario, on cattle, sheep and swine.
At the morning and afternoon ses-
sion animals will be brought before
the classes, and, with the aid of
score cards, desirable and unde-
sirable qualities and conformation
will be pointed out. The evening
meeting will be devoted to address-
es and discussions on general ag-
ricultural topics. All interested
in agriculture in any way are in-
vited to attend.—Bulletin.

The Man Behind.

There's the man behind the gun,
And the man behind the boom,
There's the man behind the stove
And the man behind the boom,
There's the man behind the bank,
And the man behind the till,
There's the man behind the club,
And the man behind the quilt,
There's the man behind the horse,
And the man behind the cow,
There's the man behind the hog,
And the man behind the pig,
There's the man behind the fist,
And the man behind the curse,
There's the man behind the pick,
And the man behind the hearse,
There's the man behind the jakes
And the man behind the rhymes,
But I'd rather be behind them all,
Than the man behind the times.
—The Hunter.

Dairying on the Danish Plan in Alberta.

At Bardo, a settlement situated on the south line of Beaver Lake, are congregated a number of Norwegian farmers, who have adopted the Danish plan of dairying, and find it works very satisfactory. Some few months ago a company was formed, and five directors and a secretary appointed. Since then this small community of farmers have demonstrated that by banding themselves together they accomplish much for their mutual and individual welfare.

The system is one well worthy of consideration by the farmers in outlying portions of the province, and is about as follows: Each farmer makes what butter he can and takes it to a central point, known as the dairy house, where the butter is all put together, worked, and salted, the object being to obtain uniformity in color, taste and salt. The butter is made on each farm upon open plan and taken to the dairy house without being worked or salted. By this means uniformity is obtained and the butter is said by those who have been using it to be far superior to the ordinary creamy article of commerce. This company is turning out a very superior article, and shipping about 1,000 pounds per week to British Columbia, where they find a ready market.

Why this company should ship to British Columbia, when apparently there is a ready market hereabouts for a good grade of butter, seems strange, unless the price obtained in that province will cover transportation charges and leave a margin to the credit of the makers over and above what can be obtained nearer home.

This matter is worthy of consideration by farmers who are too far away from a railway to admit of disposing of their cream in that way, and also is the system worthy of note by those who handle butter and desire a good article of uniform grade.

We understand the secretary's name is P. H. Anderson, and he will no doubt be pleased to give any information asked as to their methods of working by the farmers who contemplate banding themselves together in a similar manner.—Chronicle.

Alberta Farmers' Association

We publish this week a notice referring to a meeting to be held on Friday, Feb. 28th, for the purpose of organizing "The Alberta Farmers' Association."

This is the age of organizations, combines and trusts, and it is fitting that the farmers look a hand in the game. We do not need to be told that the union makes strength, and the story of a bundle of sticks is an ancient fable.

Every thinking farmer knows that there are times when by combining with his fellow neighbors he could get better prices for his products.

Every farmer knows that the people must have his produce, but the trouble is that it is necessary to use some form of business in the market for the price of the article sold. But in the case of farmers it is usually the buyer who fixes the price for the farmer to receive in return.

And then it will come home and probably, smile with his neighbor, over the matter of a stray dog or a piece of road work.

But we hope that the Alberta Farmers' Association will become a living force if it acts in accordance with the principle it sets forth as the objects of its being. Similar associations exist at the present day in various parts of the country with varying degrees of success.

We cannot help thinking that the different agricultural societies should have sprung up similar associations out of this line of work. Or, at least, the Farmers' Association and Industrial Association should work hand in hand.

We hope that the meeting on Friday, Feb. 28th, will be well attended, not only by the farmers but by all classes of the community. For it must be remembered that this association, if successful, will work good not only to the farmers, for if the farmers are prosperous the whole country is prosperous.

And that is what we want to see.

Alberta Farmers' Association

The first meeting of delegates to form the central body of the Alberta Farmers' Association was held in the Fire Hall, Strathcona, this week, commencing Wednesday afternoon and terminating yesterday. Some thirty farmers of the progressive type, who are playing no small part in making Alberta famous in the agricultural world, were present.

A WOMAN'S BACK IS THE MAINSPRING OF HER PHYSICAL SYSTEM.

The slightest backache, a neglected, liable to cause Years of Terrible Suffering.

No woman can be healthy and healthy her kidneys are well, and regular in their action. When the kidneys are ill, or when they are not, the kidneys ought to have filtered out of the blood all the waste matter.

The female constitution is naturally weak and liable to kidney disease than a man's. It is never so far from the kidneys as it is from the heart.

How many women have you heard say: "My back aches!" "Do you know my back aches?" "It is, and should be attended to immediately. Other symptoms are frequent thirst, neuralgia, thick, cloudy or highly colored urine, burning sensation when urinating, frequent urination, puffing under the eyes, swelling of the feet and ankles, and a general feeling of weakness and listlessness. All these symptoms, and in fact, these diseases may be cured by the use of

DOAN'S KIDNEY PILLS

They act directly on the kidneys, and make them strong and healthy. For every four months I was troubled with a lame back and was unable to turn in bed. I was induced by a friend to try Doan's Kidney Pills. After using two boxes I was well as ever. Price 50 cents per box or three boxes for \$1.25 at all dealers, or sent direct on receipt of price. The Doan Kidney Pill Co., Toronto, Ont.

tions exist at the present day in various parts of the country with varying degrees of success.

We cannot help thinking that the different agricultural societies should have sprung up similar associations out of this line of work. Or, at least, the Farmers' Association and Industrial Association should work hand in hand.

We hope that the meeting on Friday, Feb. 28th, will be well attended, not only by the farmers but by all classes of the community. For it must be remembered that this association, if successful, will work good not only to the farmers, for if the farmers are prosperous the whole country is prosperous.

And that is what we want to see.

Alberta Farmers' Association

The first meeting of delegates to form the central body of the Alberta Farmers' Association was held in the Fire Hall, Strathcona, this week, commencing Wednesday afternoon and terminating yesterday. Some thirty farmers of the progressive type, who are playing no small part in making Alberta famous in the agricultural world, were present.

Mr. D. W. Warner, of Strathcona, occupied the chair and formally opened the meeting with a short but pertinent speech.

The President in his address stated that the delegates present represented over 300 members, and present indications were that in a few weeks the Association would nearly double the number. The farmers were anxious to band themselves together and were only waiting a movement of this kind. He pointed out that what spite prosperity for the farmer meant prosperity for the province. There was a movement on foot to establish branches of an American society in Alberta, but although he had a warm place in his heart for America and Americans, he thought as all were Canadian citizens, and their homes was in Alberta, this association of farmers should not only be Canadian, but should also be identified with the province in which their homes were situated. In passing, the speaker also mentioned the Grain Growers' Association, which he thought was a good organization, but with many others thought it not comprehensive enough for the farmers of Alberta, who largely followed a mixed farming. Further, he thought much might be done to improve the price of hogs and beef cattle, and from correspondence received by the Association it was probable that a firm would, in the near future, establish a pork packing industry in Strathcona at an original outlay of \$100,000. It was also understood that P. Burns & Co. contemplated establishing a canning factory on the river and just south of the town. Everywhere the Organizing Committee had men they had been received with open arms by the farmers.

The election of officers was then proceeded with, and resulted in the President, D. W. Warner, being elected, and Mr. Eric Shepperd being elected as Vice-President.

At this juncture Mr. W. H. D. B. of Pincher Creek, who had arrived on the afternoon train, took his place amongst the delegates, and was received with evident pleasure by all present.

The election of Directors was then proceeded with, and resulted as follows:—W. H. Dobbie, Pincher Creek; V. Headley, Beaumont; T. Balaan, Vegreville; A. Ottewill, East Clover Bar; A. Wieda, Lodge; —Wellam, Beaver Lake.

As may be seen by advertisement elsewhere in this issue, a meeting of the farmers will be held in Wetaskiwin on Friday, February 28th, at 2 p.m., for the purpose of organizing a branch of the Association. Address will be delivered by prominent agriculturists and others. The farmers of this district are urged to be present that the object of the Association may be fully explained to them. Let the farmers remember the date and be present.

An Exchange Says

Lives of editors remind us: Honest toil stands little chance. The more we work we leave behind us. Bigger patches on our pants. On our trousers once so stylish. Now are stripes of various hues. All because subscribers tarry. And don't pay us what is due. Then let them be, and doing. Send your mite, however small. Or when the winds of winter hit us. We shall have 20 cents at all.

Toronto, Feb. 10.—The Canadian Press Association have decided that on next excursion of the members will be to Edmonton. The excursion last year was to Quebec. The editors held their annual out in July.

New Road Through Medicine Hat

Medicine Hat, Feb. 10.—Another
move has been made in the railway
situation. Active steps are being
taken with reference to the new road
north and south from Medicine Hat,
to be built by New York capitalists,
and it is fairly safe to say, backed by
the Great Northern. Yesterday Mr.
W. Robinson, C. E., called upon May-
or Forster, bearing a letter of intro-
duction from J. S. Bethune, Ottawa,
who has the work in hand. The road
the company will build is from Medi-
cine Hat to Milk River on the
Montana boundary. Mr. Robinson
found yesterday looking over the
ground around Medicine Hat, gather-
ing information about the country
north and south, and the resources of
the town.

Ponoka Golden Wedding

Ponoka, Feb. 10.—The golden wed-
ding of Mr. and Mrs. Jas. Dick was
celebrated in Ponoka on Thursday,
February 8, the ceremony being per-
formed by Rev. K. C. McLeod in the
presence of their children, grandchildren
and friends.

Mr. and Mrs. Dick's parents settled
in the county of Lanark, province of
Ontario, during the first quarter of
the last century, coming direct from
Scotland, and both had large families
to perpetuate the name. They moved
with their children, to Minnesota,
U.S.A., in 1870, where they remained
for about thirty years, but returned
to Canada some six years ago when
they settled in their present home in
Ponoka, Alta. The worthy couple
are still hale and hearty and bid fair
to spend many happy days in each
others' company, and in the midst of
their many appreciative friends.

Hill's Road for Edmonton

Humbolt, Sask., Feb. 13.—Engineer
Robinson, confidential agent of Jas.
J. Hill, the great American railway
magnate, admitted here today that he
was in the northern country to look
into the traffic possibilities of the pro-
vince of Alberta and that he would
recommend to his principals that a
road be constructed from the main
line of the Great Northern Railway at
Havre, Mont., almost due north
across the Canadian boundary, through
Medicine Hat, and by the most direct
route to Edmonton, crossing the Red
River in Range 7. The ultimate
intentions of course is to con-
nect here with the Grand Trunk Pa-
cific and to direct a large part of the

MILBURN'S LAXA-LIVER PILLS

are mild, sure and safe, and are a perfect
regulator of the system.

They gently unlock the secretions, clear
away all acids and waste matter from the
system, and give tone and vitality to the
whole intestinal tract, curing Constipa-
tion, Sick Headache, Biliousness, Dyspep-
sia, Catarrh, Tension, Food Breaks, Acids,
Heartburn, and Water Brash. Mrs.
J. S. Ogden, Woodstock, N.B., writes:
"My husband and myself have used Mil-
burn's Laxa-Liver Pills for a number of
years. We think we cannot do without
them. They are the only pills we ever
took."

Price 25 cents or five bottles for \$1.00,

to T. Milburn Co., Limited, Toronto,
Ont.

American traffic destined to the
port by these roads, as being the
shortest route between the far east
and the state.—Bulletin.

Winter Evenings at Home

Every day of the 365 days in this
round year contains the same num-
ber of hours 24 and no more. Yet a
summer day and a winter day
and a winter day are wholly unalike
another, and a summer evening
is a very far away cousin of a
winter evening. Summer even-
ings are made for happy people
who have no bad memories and no
dull regrets. They are meant for
lovers, for lingering at the gate,
for a last kiss and hand clasp,
while the moonlight bathes lawn
and garden in its flood of silvery
sheen. Winter evenings are for
the home. We associate them
with the cheer of the hearth and
the bright open fire.

Darkness gathers early in winter
and the evenings are long. They
give opportunity for cultivat-
ing every grace that belongs to
family life.

The cold of the winter evenings
has awakened in the beginnings
the kindly hospitality of the house-
hold. Such virtues as generosity
and unselfishness flourish in the
country.

When the long evenings come
one of the vital needs is to make
them agreeable and cheerful for
all within doors. Nobody should
be left out of the tender amenities
of the home circle. Boys from 15
to 18 have often reached a restless
stage in their development, when
they are very apt to slip away
from home if it be gloomy or
frigid or in any way wearisome.
Of all mistakes, however, that
which is too frequent of lamp light
in the winter evenings is the most
deplorable. Save something else
if you must, but have plenty of
light. The living room should be
well lighted and warm lighted, but
a boy or girl who prefers to spend
part of the evening in a separate
room should have the chance to do
so with a shaded lamp and suffi-
cient warmth to make the room
pleasant.

Sociability among neighbors be-
long to these long evenings, and
to promote sociability there should
be music and games and informal
conversation, as well as something
simple in the way of refreshments.
A chafing dish should be a family
convenience, and every home
should have its well filled cake
box and a good store of nuts and
apples free to all.

There are people who pride
themselves on being unsociable,
who say they have no fitness for
life outside their families. The
narrowest woman I ever knew, the
woman who was least sympathetic
and least attractive although beau-
tiful in person, and highly edu-
cated, had cultivated in herself an
indifference to other people and a
reluctance to leave her own home
that made her in middle life a pure
petrification. There is such a pure
as being too domestic, too exclu-
sive, and while the long evenings
give great scope to domesticity,
they also give a splendid chance
for sociability.

I suppose everyone knows that
we may form any habit we choose,
a habit of being well-mannered
and hospitable, or a habit of being
unfriendly and ungenerous. A
thoughtful writer has said that
persons who mean to grow must
make automatic and habitual as
many useful habits as they can.
"Down among the nerve cells and
molecules are counting, registering
and storing up our time to be used
for good or ill when opportunity
comes. Nothing we ever do in
strict scientific literalness, slip out
of us, of course, this has its good
side as well as its bad one. If we
become permanent drunkards be-
cause many separate drinks, so we
may become saints in the mean-
while, and experts in the mean-
while, and scientific spheres by
many separate acts and habits
of work."

What I wish to emphasize is
that we may form habits of ap-
preciation, study, of kind words to
friends and of knowing how to
have a good time in the long even-
ings, if we seriously determine to
put them to some good use. It
will be the greatest of pities if we
let the winter drift by without get-
ting from it both pleasure and
profit. It is the period when the
home fires may be most closely
drawn, and when we may have
the most beautiful fun and enjoy-
ment beyond our homes.

The Bad Cold of To-Day

MAY BE PNEUMONIA
TO-MORROW.

The sore throat or cold, though that, in the
beginning, seems but a slight annoyance, may
develop into Pneumonia, Bronchitis, or some
Throat or Lung trouble.

DR. WOODS NORWAY PINE SYRUP

contains all the ingredients of the pine
tree, and is a sure cure for Coughs, Colds,
Whooping Cough, Sore Throat, Hoarseness,
and all Lung troubles. It is a
sufferer from Coughs, Colds, and all Lung
troubles, for years and have found Dr. Woods' Norway
Pine Syrup to be better than any other remedy
I have used. It is a family medicine, and is
in cases of Coughs or Colds. We would not
be without it."

This C. N. B. is Prescribed

While from the others compar-
atively little is given to the
Canadian Northern Railway,
the province that road is
none the less a notable one,
and promises yet to be one of the big
transcontinental lines of Cana-
da. There can be no question of
the accuracy of the above state-
ment by anyone familiar with the
resources of the country. It tops
its net earnings for the year ending
June 30, 1905, were \$1,545,
482.32, and its net surplus, \$119,
702.91, for the same period. Its
traffic receipts for the year ending
June 30, 1905, were \$1,545,
482.32, and its net surplus, \$119,
702.91, for the same period. Its
traffic receipts for the year ending
June 30, 1905, were \$1,545,
482.32, and its net surplus, \$119,
702.91, for the same period.

V. G. FERRIS, Editor and Proprietor

THURSDAY, FEB. 15, 1906

Wm. Whyte Interviewed

Mr. Wm. Whyte the second vice-

president of the C.P.R., arrived in

Montreal from Winnipeg a few

days ago to submit plans for the

present year. In the course of

an interview he said:

"Things are prosperous with us

out in the west, and I look for a

better demand for farming land in

1906 than in any previous year.

The immigration from the United

States is likely to be particularly

large. Last year nearly forty

thousand persons came from over

the border and settled, and from

the information already in our

hands there is little doubt that

this total will be considerably ex-

ceeded this year.

The present year will see the

entrance of the C.P.R. into Ed-

monton. The line from Calgary

has been carried right up to

Strathcona, on the south side of

the river opposite Edmonton, and

during the year a bridge will be

built over the river so as to give

entrance into the present capital

of Alberta. The river is a difficult

one to bridge. The bridge which

will be started this spring will be

four hundred feet high, and nearly

two miles long.

"One of the most important

pieces of work taken in hand dur-

ing the present year is the building

of a line east and west of Saskatoon

to connect with the line to Ed-

monton, thus giving a through

route from Winnipeg to Edmon-

ton. This line will then practically

parallel with the present track

from Regina to Calgary. Between

the two there a millions of acres

of rich land and the will be

further opened up to settlers by

the building of yet another line

from Moose Jaw, a little to the

southwest of Regina to Lacombe,

midway between Calgary and

Edmonton. This work," Mr.

Whyte said "would also be rapidly

pushed forward during the year."

Other extensions to be taken in

hand included the building of a

line from Shebo to Saskatoon, and

the completion of the line from

Regina, Manitoba to Wabasca,

Saskatchewan. Altogether from

250 to 300 miles of new track

would be laid. Fifteen hundred

men are at present at work on the

construction of the double track

between Fort William and Winni-

peg, and Mr. Whyte hopes that

100 miles of the new line will be

ready for use when this year's crop

is harvested.

Mr. Whyte remarked that the

mid weather had been particu-

larly favorable for handling traffic.

Out of a total of ninety million

bushels which constituted this

year's crop of wheat, over forty

million bushels had been inspected

and passed through Winnipeg, and

there were at present about six-

teen million bushels in the eleva-

tors west of Winnipeg.

G.T.P. Branch Lines

The following are the branch lines

in detail which the Grand Trunk Pa-

cific Branch Lines company will ask

power to construct:

1.—From Moncton to Halifax.

2.—From a point on the transcon-

tinental to St. John.

3.—From Montreal to a junction

with the transcontinental.

4.—From Ottawa to a junction

with the transcontinental.

5.—From North Bay to a junction

with the transcontinental.

6.—From the transcontinental

north-east from Fort William to a

junction with the Grand Trunk rail-

way north of Toronto, with the right

to pass through or reach by spur line

Sault Ste Marie or Sudbury, or both.

7.—From and around Winnipeg

through surrounding districts, and to

boundaries of Manitoba, subject to

approval of the governor-in-council.

8.—From Brandon to a junction

with the Grand Trunk Pacific.

9.—From Brandon to boundary

line between Canada and the United

States.

10.—From Brandon to Carberry.

11.—From Yorkton to a junction

with the Grand Trunk Pacific railway.

12.—From Regina to a junction

with the Grand Trunk Pacific rail-

way.

13.—From Regina to the boundary

line between Canada and the United

States.

14.—From Prince Albert to a

junction with the Grand Trunk Pa-

cific.

15.—From Battleford to a junction

with the Grand Trunk Pacific

16.—From Calgary to a junction

with the Grand Trunk Pacific rail-

way at its fourth terminal in or in

the vicinity thereof

17.—From Calgary to a junction

with the Grand Trunk Pacific rail-

way at its fifth terminal.

18.—From Calgary to the boundary

line between Canada and the United

States.

19.—From Vancouver to the junction

of the Grand Trunk Pacific rail-

way or to a junction with the Pacific

Northern and Quebec railway, or

both.

20.—From a point on the north

shore of Vancouver Island in a gen-

eral southeasterly direction and along

the western side of the Island of

Victoria.

21.—From Dawson to a junction

with the Grand Trunk Pacific rail-

way.

22.—From the northern terminal

of branch lines extending northerly

from the Grand Trunk Pacific rail-

way to Hudson's Bay.

23.—Such other lines of railway as

the company may from time to time

deem expedient for operation in con-

junction with the Grand Trunk Pa-

cific railway system, subject to the

approval of the governor-in-council.

The Source of Neuralgia.

CLOSING-OUT SALE

AT

FOWLER & BREEN'S

Owing to ill-health Mr. J. B. Anderson has to have a change of climate. He in consequence had to sell his business at once. We have bought his stock at such a
